

IN THE CLAIMS:

Please amend Claims 1 and 3-5 as follows:

1. (Amended) A method for removing honeycomb and braze from a substrate, said honeycomb having a base and a ribbon direction, comprising: directing a pressurized liquid at an angle of less than about 90° between the liquid and the substrate, through at least one orifice of a nozzle such that the liquid forms a liquid stream upon exiting the nozzle, the liquid stream [which strikes] striking the substrate at the base of the honeycomb, thereby removing the honeycomb and braze from the substrate, whereby the substrate may be reused.

Claim 3, line 1, after "liquid" insert --stream--;

Claim 4, line 1, after "liquid" insert --stream--;

Claim 5, line 1, after "liquid" insert --stream--;

REMARKS

Reconsideration of the above-identified application in view of the preceding amendments and the following remarks is respectfully requested.

Claims 1-8 are pending in this application. By the present Amendment the Drawings, Specification and Claims 1 and 3-5 have been amended. Applicants respectfully submit that no new matter has been added to the subject application by these amendments.

I. Specification:

The disclosure was objected to by the Examiner because of various informalities. By the present Amendment these informalities have been corrected and withdrawal of the objection is therefore respectfully requested.

II. Objection to the Drawings Under 37 CFR § 1.84(f)

In the Action, the drawings were also objected to under 37 CFR § 1.84(f) because reference numerals 34, 36, 38 and 40 appeared in the specification (page 5,
